HALLOWEEN PARTY
One of the prettiest little parties of the season was given Saturday evening at the home of Mr. and Mrs. Earl Geiger at their home on Twentieth street, when their little daughter June, entertained about fifteen of her little friends at a Halloween party. The guests all arrived in costumes, fitting the occasion and the house and table decorations were all typical of the ancient Halloween myths. Black cats, halloween owls, the old woman with her broom and various other conceits were perfectly carried out.

Delicious refreshments were served following the games, songs and gay pranks of the children and the awarding of prizes after which the happy little guests departed, reluctantly for their homes.

The hostess was a dainty exemplification of a pink poppy and her guests were costumed as follows: June Geiger, black witch; Aline Grey, yellow witch; May Cragun, red riding hood; Leona Revor, Colonial lady; Alice Wilson, black cat; Norma Purdy, pink rose; Ruth Rathbun, yellow witch; Kathryn Blosser, Halloween fairy; Virginia Christensen, rose; Cloyd Bartonek, clown; Clellis Rackham, chrysanthemum; Glennia Read, fairy white; Emma Hobbs, sunflower.

Mrs. Geiger was assisted in entertaining and serving by Mrs. Frank Bartonek, Mrs. Will Rackham and Mrs. Wade and Mrs. Peterson.

All of the unique and dainty designs, prizes and favors were made and designed by Earl Peterson and Mrs. Emma Peterson.

For pinning the eye on the huge Jack-o'-lantern Emma Hobbs received a dainty basket with Halloween designs and filled with bonbons and the hostess a dune cap of black and yellow as booby prize. Leona Revor stabbed the most peanuts in a greasy bowl and fell her to another pretty basket of bonbons while wee Virginia Christensen received the booby prize.

Kathryn Blosser won first prize for celebrity in threading the popcorn and Clellis Rackham the booby prize.

A feature of the evening was the presence of four generations at little June's Halloween party. There were the great grandfather, Joseph Byram of Salt Lake, who occupied a seat of honor and witnessed the happy occasion as one of the pleasantest events of his long life. Grandpa and Grandma Wade, Mr. and Mrs. Geiger, and the little hostess completed the family circle that represented three-fourths of a century.

After the children departed the family and older guests enjoyed a fine dinner at which reminiscences of happy childhood days were a feature.

LESSON OF THE MOUNTAINS
"The Lesson of the Mountains" was the subject treated in a devotional talk by Dr. J. G. Lind at Weber academy. The speaker expressed the view that he could find no consolation in the thought that the future abode of man will be characterized by a mountainous, even surface like a sea of glass and one void of water, as some idealists would have us believe. If man's future home be a material sphere, he hoped to find there lofty mountains, furrowed with deep canyons, carrying crystal streams; also great glaciers, as well as even plains, and to hear the breakers rolling on the distant shores of a heavenly ocean.

TWO SALVATIONS BUT NO SECOND CHANCE IS OFFERED

About 400 turned out yesterday to hear Pastor Toole of New York at the Tabernacle on the "Two Salvations." The unfortunate accident at the power plant, completely shutting off the electric lights in the building, caused a great many to leave, before the house was finally lighted with candles.

A brief synopsis of the address, which was the last of the series of four lectures under the auspices of the International Bible Students' association, follows:

The speaker made it very emphatic that none will get a second chance, though every one will get one full

chance for salvation, either in this world or in the world to come.

Pastor Toole pointed out that many, who think of the Divine program as merely an endeavor to rescue mankind from sin and death in the present life, are much confused, because it must be acknowledged that comparatively little has been done, or is now being done for man's uplift. After six thousand years it is still true that "the whole world lieth in the wicked one"; "darkness covers the earth and gross darkness the heathen."

In order to have any confidence at all in this theory, those who hold it are obliged to greatly lower their standards. They are forced to hope that God will admit millions of unfit people, crude, rude, ignorant and wicked, to eternal life and happiness or else provide for them purgatorial experiences, "to make them fit for life eternal."

He maintained that, as a whole, Christians are greatly bewildered and that the tendency of their bewilderment is toward doubt, skepticism and atheism.

He pointed out, also, that others believe that God never intended the salvation of the world, but merely the salvation of the church, "elect according to the foreknowledge of God through sanctification of the spirit and belief of the truth." Those who hold this theory are greatly confused also, because it seems incomprehensible that God would make no provision for the "thousands of millions" of Adam's race, but allow them to be born in sin, shapen in iniquity, and to go down to the tomb with almost no knowledge of their Creator, to suffer, according to this theory an eternity of unspeakable torments.

The speaker then showed that the Scriptures clearly set forth two salvations, entirely separate and distinct. They are different as respects time, in that the one salvation "began to be spoken by our Lord," at His first advent, and began to be applicable to the church at Pentecost and will wholly cease at His second coming in the end of this age. The other salvation neither applied before our Lord's first advent nor during this gospel age, but will apply to all mankind, except the church, during the millennium—the thousand years of the reign of Christ and the church, especially designed for the world's blessing and uplift.

These two salvations were shown to be distinctly different as to kind. The salvation of the church during this gospel age, since Pentecost, means not only a deliverance from sin and death conditions to eternal life but provides that their eternal life will be on the heavenly or spiritual plane and not on the earthly or human plane of existence. Thus the apostle declares that our "inheritance is incorruptible and undefiled and fadeeth not away and is reserved in heaven for us who are kept by the power of God through faith unto salvation."

1 Pet. 1:4, 5. Our Lord also stated that in the resurrection we shall be as the angels. The apostle says that we shall then be partakers of the Divine nature and like our Lord and Redeemer.

LAW BOOKS NOT MORE NECESSARY THAN RUBBER BOOTS

Judge James A. Howell and Nathan J. Harris appeared before the board of county commissioners this morning and urged upon the members the necessity of using a fund created by the judges for the enlargement of the Weber county law library.

The board took the matter under advisement.

Judge Howell told the board that when the ministerial duty of passing on liquor licenses was placed upon the judges of the district court, he and Judge Harris adopted a rule by which each person having a license to sell liquor in the city should be required to pay an annual fee of \$10 to be used for the purchase of law books and that there is now a balance of \$679 in the fund. It was also explained that the library is in need of the Illinois reports, which are offered for sale by Judge Volney C. Gunnell, at a price lower than they can be purchased elsewhere, and the board was urged to appropriate the sum of \$175 for that purpose.

Expressing himself on the question, Commissioner W. C. Hunter said that he did not know whether the board was under obligations to furnish working material for the courts and lawyers any more than to purchase rubber boots for men working on the roads for the county, but that he was willing to give the subject due consideration.

Judge Harris and former district attorney George Halverson also impressed the board with the idea that the Weber county law library should be maintained and enlarged, saying that all other counties in the state are building law libraries to facilitate the work of the judges. Mr. Halverson told the commissioners that the attorneys of the city are working in harmony to get the best possible collection of books for the law profession in the city, by each noting the books the others have on hand and, when purchasing, avoiding duplications.

CANDIDATES TO CUT DOWN ON HAULING VOTERS TO POLLS

That the new policy of eliminating the practice of hauling voters to registration offices, and the polls to vote will be followed as closely as is practicable, is evidenced by statements of candidates today to the effect that but little effort will be exercised tomorrow to get the voters to the registration places, and yet, it is certain that there will be automobiles and rigs in the field to accommodate those who prefer to ride. It is likely that the autos will be designated as "voluntary" conveyances, and it will be claimed that no money is being expended.

The two candidates for the four-year term, Chris Flygare and A. E. Weatherby, frankly stated today that they would have some autos and other vehicles in the various polling districts for the voters, yet stating that they are in favor of abolishing the practice as nearly as possible, but that it can not be done at once. They contend that there are many people who live far away from the registration offices and cannot well reach them on foot after they quit work in the evening, and that there are also others who are not able to walk to where they are required to register. For all such, they say, they will try to render assistance. The candidates for auditor, W. D. Van Dyke, Jr., and A. F. Larson, will also use autos in a like manner.

Dr. H. M. Rowe, candidate for mayor, has taken a decided stand against the practice of hauling people to the registration places and he declares that he will stand by that declaration to the last. On the other hand, Manager D. S. Cook, speaking for Mayor Fell, says that he will have "voluntary" autos and other conveyances in the field tomorrow for the purpose of aiding those who desire to register. He claims that there are many voters who wish to vote but that they cannot well get to the registration offices without assistance.

Chris Flygare will open an office at 431 Twenty-fourth street, Wednesday morning, where he will spend much of his time until election day. Mr. Weatherby, his opponent, will attend to election matters at his office, at 420 Twenty-fifth street, where he says that he gladly will furnish information regarding registration and other matters connected with the election.

City Recorder George Seaman has perfected the last act for registration tomorrow by returning the lists to the registrars, and advising them as to their duties. Tomorrow is the last day for registration. The places are:

OGDEN HIGH STILL HAS A CHANCE TO WIN HONORS

Local football fans are interested in the outcome of the football game to be played between the Salt Lake and Granite high schools for the championship of the state. Salt Lake has played two games winning both, while of the two games played by Granite only the game won from Ogden counts in the high school league. The Granite boys were defeated by the University of Utah freshmen.

Jordan high school, which was defeated by such a large score by the Salt Lake team Friday is to play with Ogden next Saturday.

Should Salt Lake defeat Granite next Friday, Ogden will still have a chance at the championship because Ogden gets another game with Salt Lake in November. Should Ogden improve over the form displayed in the game with Salt Lake a week ago, there is a chance for the locals to win as it is generally conceded that the Orange and Black was not in condition when defeated by Granite. Ogden has another chance at Granite, also.

The Granite backers, however, believe that this year's team is the best in the history of the school. The school has a heavy line and the back field is composed of the most experienced men in the state high school league. Dennis Usherman, the big half is being used for double pur-

HEALTH LAWS BEING VIOLATED BY MANY IN THE COUNTY

Learning that residents outside the city limits, especially in Riverdale and Wilson, are hiding contagious diseases from the county health authorities, and believing that the hidden diseases in the county are the cause of the poor health conditions in the city, County Physician A. A. Robinson today announced that he had instructed all country health officers to call the attention of the county attorney to violation of the health statutes with a view to prosecuting to the full extent all who are not reporting contagious diseases.

According to the statutes those who are found guilty of failing to report contagious diseases or who are found guilty of breaking quarantine are guilty of a misdemeanor and may be fined not less than \$25 or be jailed for that time.

SPECIAL JURYMEN CALLED BY COURT

In Judge J. A. Howell's division of the district court this morning the petition for approval, allowance and settlement of final account; for an order setting aside a homestead; for distribution, discharge and close of estate in the matter of the estate of James Clinton Jones, deceased, was granted.

In the estate of John C. Anderson, deceased, letters of administration were issued to George McCormick and his bond fixed at \$100.

In the matter of the estate of Samuel Walker, deceased, his son, Fred W. Walker, was appointed administrator under a bond of \$500. The estate consists of real property valued at about \$2500. Mr. Walker died February 14, 1905.

The demurrer in the case of the Western Bottling company against John P. Bush was overruled and the defendant given 20 days in which to answer. The same ruling was given by Judge Howell on a demurrer in the case of the Rutland State Bank vs. E. W. Patrick et al.

The time for hearing arguments

on the motion for a new trial in the case of the Farr Development company against M. L. Jones et al, was set for November 8.

The following special venire of Jurymen has been summoned to appear for service in Judge Howell's division this afternoon:

A. E. WEATHERBY

Candidate for Four-Year Term Commissioner.

I reaffirm my former declaration favoring the building of the dam and guarding carefully all vested rights now owned by the city.

I favor the immediate improvement of the streets and particularly those in the residential districts.

The importance of sanitation cannot be overestimated and I therefore favor the immediate extension of sewers especially in the more thickly populated districts.

Believing that the homes and fire-sides of our citizens should be protected against every form of vice I heartily favor the strict enforcement of the ordinances relating to the regulation and closing of saloons at 9 o'clock and the abolition of resorts devoted to gambling and other immoral practices.

In common with all good citizens I am in favor of progress in our municipal activities and a healthy growth in our business and population and that such a bigger Ogden shall also be a better Ogden.

If elected I pledge my time and best efforts for such an administration of municipal affairs as will increase the welfare of every citizen.

ENTERTAIN NEARLY 100 GUESTS

The Ferrin home in Eden was the scene of much gaiety Saturday evening when nearly 100 persons were delightfully entertained by Mr. and Mrs. Wilmer Ferrin, at a house warming and a wedding anniversary celebration.

Mr. Ferrin has just completed a large new residence and it was decided to combine the house warming re-
